A

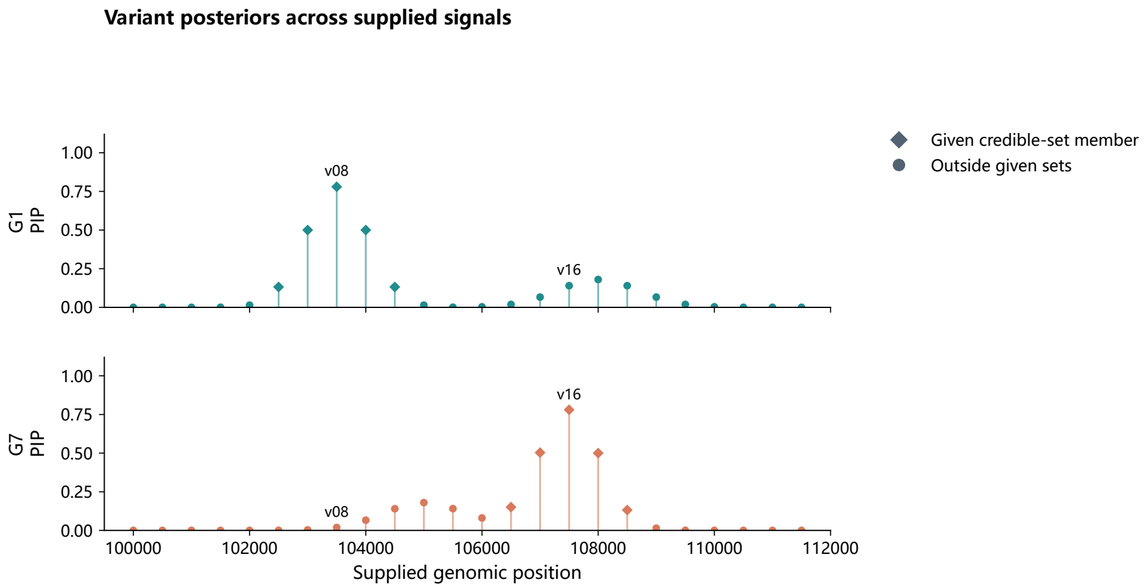

Known-map arrows encode supplied topology; node abundance does not encode flux.

B

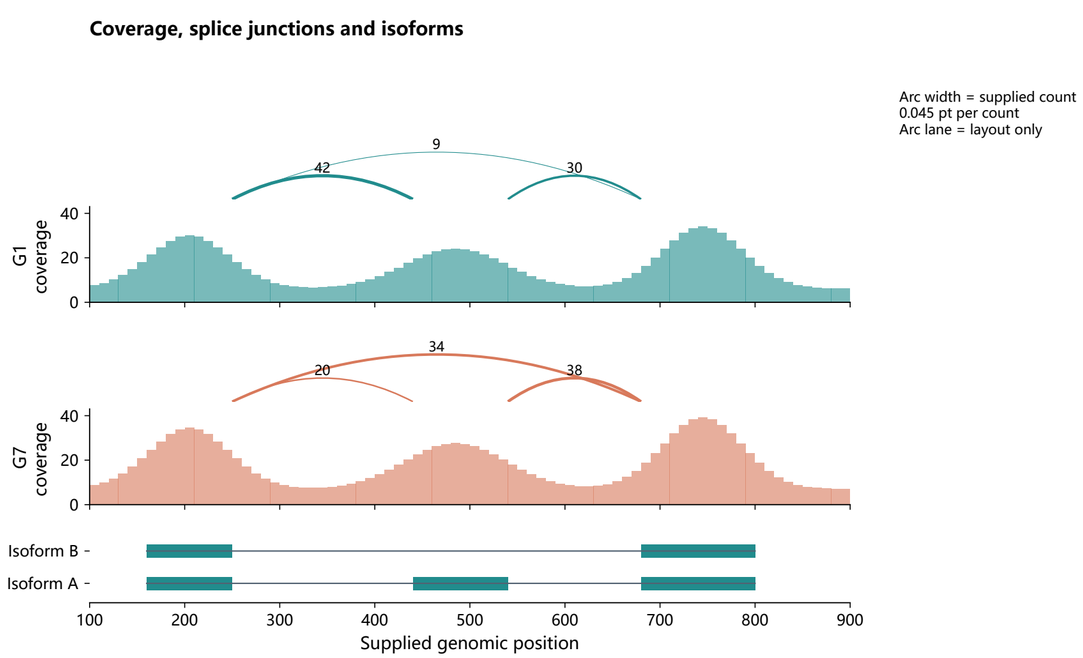

No peak matching, compound identification, rescaling or deconvolution performed.

C

Synthetic assembly and segment; supplied one-based variant positions; Frozen multi-signal PIPs and supplied credible-set membership; no probability normalization

D

Synthetic segment; 0-based half-open intervals; increasing position, strand not inferred; Supplied coverage in a common scale for both samples; Supplied junction read count; zero counts retained; arc height is layout only
